

It is my understanding that my K-Love radio station is threatened by allowing LPFM stations to take priority over current FM translator service. K-Love is such a blessing in my life, and is very important in my community. It is especially wonderful when my 17 month old son "plays" with the radio and dances to the music on K-Love. This station serves a great purpose in playing family safe music. I never have to worry about what my son's ears will hear on K-Love, which is not true of mainstream radio. His ears are safe with K-Love, and this is critical to me. This city and this nation need family friendly radio broadcasts. Please do not allow this LPFM issue to take my K-Love away.
